DETAILED ACTION

Applicant's arguments filed 5/13/08 have been fully considered but they are not fully persuasive.

Claims 1-39, 42-43, 45-46, 49-50, 52-53, 56-57, and 59-60 have been cancelled.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 54, 55, and 58 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

Claims 54, 55, and 58 are not originally filed claims. The concept of a method for identifying a compound using "a polypeptide comprising a fragment of at least 15 contiguous amino acids" is not disclosed in the specification as set forth in prior Office actions. Applicant has previously pointed to page 7, lines 7-10. This is not agreed with. At least for example, the disclosure on page 7, lines 7-10, is not with respect to reagents for binding assays.

Applicant has removed the limitation of biologically active fragments in view of the enablement rejection set forth in the prior Office action. Applicant's previous arguments for basis have all been based on the disclosure of biologically active fragments. (See at least

arguments submitted 10/9/07 and repeated 11/8/07.) The claims as written are not supported by the originally filed specification.

Conclusion

Claims 40, 41, 44, 47, 48, and 51 are allowable.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
